The Receiver's meeting opened with a call to order by Receiver, Mr. Peter Barsz and the Pledge of Allegiance.

NOTICE OF ADVERTISED MEETING

(COPY OF ADVERTISED NOTICE ATTACHED)

REPORT FROM THE SUPERINTENDENT

I'd like to introduce a couple of folks to you this evening. I'd first like to introduce our new director of special education and pupil services, Mr. Mark McIntyre. I'd also like to announce that you will see on the agenda tonight that Josh Culbertson is leaving us. We want to thank Josh for years of service. I'd like to announce that the young man standing up in the back, Tom Johnson, raise your hand please, is stepping in for Technology for Josh Culbertson. So, welcome Tom. And, is Nicole here? Nicole Cogdell will be moving from Toby over to the special education department as Coordinator of Programs. Welcome Nicole.

I want to move now to Dr. Jala Olds Pearson, who's going to share with us this evening some PSA information. Dr. Pearson.

Dr. Pearson gave a presentation on PSA scores and our Keystone scores and how our schools are doing.

Sometimes all you need to say is thank you. Way to go. And let's do it again and again and again. Thank you so much Dr. Pearson. Thank you everyone who had anything to do with what's happening here. Thanks again everyone.

There's one more personnel move I wanted to announce tonight. Mrs. Baldwin's last day at Stetser, after 10 years, I think, is tomorrow and on Monday, Lavata Driggins Green will be interim principal at Stetser Elementary School. That ends my report.

APPROVAL OF MINUTES OF PREVIOUS MEETINGS OF OCTOBER 17, 2019

Receiver Barsz approved.

PUBLIC COMMENTS

Carla Beaver - Good evening everyone. Mine is a praise report. I would like to thank Dr. Baughn, Anthony Johnson, Tyra Quail, for believing in my son. My son has been at STEM since eighth grade, my son been on honor roll ever since and he just made honor roll again today. So, I would like to thank y'all for that.

Dr. Juan Baughn - Thank you for believing in your son. We should have more people doing that. Thank you so much.

Ms. Beaver - If more people would push their students like I pushed my son, not really push him, but if they would stop labeling our kids that had been in special education or stuff like that, special needs and stuff like that, then more kids could succeed in STEM like my son succeed in Stem.

Anita Flood-Miller – Okay, so this is just an update from our meeting that we had. I know one day I looked over his IEP, so his IEP is not in compliance with what you should be doing. From day one, from him coming from a charter school to Chester Upland school district, they had a 10 day adoption for his IEP, let me see. They should had her sign on the door and when she came from the charter school to the Chester Upland school district, and when they knew that that teacher wasn't going to be there, they should have told me and

that didn't happen.. So we've got a lot of things accomplished from this part. We didn't talk yesterday about this, so there has been some things, some adjustments, and some good adjustments. But we still need to be able to have Kayden be on at least the second grade level, before he leaves out of school, for the summer, at least. And then I'll have to work on that after. But, I thank everyone that was involved in me talking and Carla talking to get him the help, a lot of the help he's needed. So we're making progress. There is some progress. The IEP is getting done. The psychologist was there last Friday testing. She did my testing on Monday and did his taking on Friday. So, I was just going to call. I talked to Dr. Pugh and I believe that we're going to have a meeting on the 20th, they said before the 20th.

Dr. Baughn - Mr. McIntyre, at the close of business, would you touch base?

Mr. McIntyre - Sure.

Dr. Baughn - Okay, good. Thank you.

Ms. Miller – All right, thank you.

Jean Arnold - Thank you so very much. I need a little help on one of my questions or concerns. Does the PBIS program have funds associated with it that the different schools can use at the implementation of that program?

Dr. Baughn – Yes.

Ms. Arnold - Okay, so what I would ask is that we take extreme caution and care that when those requests and paperwork go over for those funds, that we do not lose them and do not require that they be done more than once. Sometimes, we know about the experiences that we have had. We've done some wonderful work and improvement with that process, but I would like to ask that we make sure that when these requests come over, that we handle them very well the first time.

Second thing is this. This is sort of like a swan song for you sir, Mr. Barsz. I have been concerned about special ed for many, many years. Those of you who have been here for a while know that, and what I would like to do is again, make a request is particularly for the gifted program. I'm asking that we do serious consideration in expanding the instruction opportunities for those children who are gifted. We have a wonderful person who is doing work right now, but when we look at the God gifted talent that these children have, I don't think that in good conscious we can continue to not serve how these children are able to learn. And so, what I'm asking you to do is consider some other persons that might also facilitate that process. I've been in discussions with Dr. Pugh, he's been very gracious in giving me some of his time and he's talked about some of his ideas in that regard. I totally support that, I haven't talked to Dr. McIntyre yet, but I implore you sir, whatever you can do and those persons who are still here, to tend to educate our children who are at the top end of the bell curve for their skillset. And, before I take my seat, I want to say to you, Mr. Barsz, that it has been a pleasure knowing you these years. I am grateful for the graciousness of which you have responded to me and worked with me collaboratively. I am confident that your best days are still ahead of you.

Peter Barsz - Thank you. I'm glad you're confident.

Ms. Arnold - Oh yes. I don't admit this publicly, but I am a praying woman, that cliché, and so because of my relationship with God, I can say that with assurance. God speed, may the wind be at your back and give my best to your wife.

Peter Barsz - Thank you very much Miss Jean.

Daria Jackson requested from the Receiver to take Mr. John Shelton, Jr.'s place on the list. Mr. Barsz said yes. Mr. Barsz asked if Mr. Shelton would be speaking and the answer was no.

Daria Jackson - Just wanted to speak on behalf of Chester Upland Education Association, as Vice President of the local union. Just wanted to thank Dr. Baughn and Mr. Barsz and all the other persons responsible for accepting our one year MOU to extend our current contract. Hopefully we can begin negotiating in January for a new contract, and because you have accepted that, we are here, we are truly grateful, and we will continue to work hard for our students here at Chester Upland.

Mr. Barsz - Thank you. You guys are terrific. That is exactly what I believe the administration intends to do, so it's going to start January.

Ms. Jackson - I hope so. Thank you.

Fred Green, School Board Member, asked to speak and was given permission by the Receiver.

Fred Green - Just really briefly, many of you may or may not know, but today is Peter Barsz's last as receiver, last school board meeting and I wanted to publicly thank you for your service to the Chester Upland School District over the last three and a half years. We're not where we want to be, but I'm sure we'll get there one day. I thank you for the hard work that you've done thus far, and best of luck on your journey wherever life may take you.

Mr. Barsz - Thank you. That was very nice, thank you. And that ends our Public Comments.

BUSINESS AGENDA ITEMS #C-1 THROUGH #C-10 AND SUPPLEMENTAL AGENDA ITEM #C-11, WERE APPROVED BY PETER R. BARSZ, RECEIVER

OTHER BUSINESS

Mr. Anthony Johnson, President of the School Board asked to speak and was granted the floor:

I know Fred Green came up and gave us his great opinion, about you Peter. We go way back prior to you being the Receiver because you had always looked out for your community and me. Where I grew up, my brother runs boys club, and y'all donated money to that cause. So when your name came up, I asked the board to interview you to be our receiver, and the three and a half years you've been here, you've been attacked, personal, through PDE and their actions. You've been in the newspaper labeled like you were a crook. You've been challenged more times than any receiver, any control board, power board ever like this, like a history. And you came in here to help, you didn't have to come. When we asked you to come, you came. You could have said look, I've got, this is an expanding in my business, I don't have the time. But you put as much time as you could through all that, and you're not an educator, but your background is business. And at that time, the part of the plan we needed you, when you came in and you did a lot. I mean the agreement with the charter schools, that helped to keep this district a float. A lot of people don't know that. That could be \$15 million we could be looking at, and right now I don't know how we would operate \$16 or \$17 million in the hole every year. This district been through that, and you came in and you stabilized that business off, under all of that pressure from them to have you be a token for them and you didn't, you didn't buckle under them. A lot of people, they come down here and they buckle under them.

The town, the boards took their lead, but you came and you stood your ground, and that was a time when most of, the majority of the board is Democrat and you're a Republican. You never played the politic, and I'm being real, the politics in Washington, they can't work together. We showed that when you first came here, we stood arm and arm with you and said look, he's trying to help this district move forward and I caught a lot of flack from my party. You probably caught a lot of flack from your party saying, why are you helping them? And then when my party, why are you bringing a Republican in to the district? But you never, we never talked politics. We talked about the day we met for three and a half years. We talked about students and progress and how we want to pay bills. A lot of times, in the Business Office, Sharon saying we don't know how we're going to pay bills. But you had to figure that out. You guys had always tried to figure it out. No adult here has missed a paycheck in nine years.

So that's saying something. That's a lot of you and them being crafty with that money, man. I'm not talking about hiding money. You exposed so much when you first came home, or how we were paying this district, we were paying a tax collector \$120000 a year. He was the most wealthiest tax collector in the state of Pennsylvania. He didn't have to do that. He didn't have to say anything. He could have came in and said, that's not important. Cell phones. Everybody has a cell phone. He had people that wasn't even employed in district, still was using a cell phone. He cut that out. Cars, we had cars that we didn't have for 10 11 years, we were still paying insurance on the cars.

So you came in here under all of that scrutiny because he wouldn't play ball with PDE. So I want to thank you just for that, saying enough of that, because a lot of people didn't know it. Joe left, ran out of here soon as they started, scared and Dr. Barnes was the same way. You stood in there four times, I had to go testify in court saying nah, he's that guy, cause still here right here and now, under funded. That's where the argument should be with them, not with him and him trying to do what they weren't going to help him to do. They didn't help him. They didn't say Peter, we got you. What, you need five million? We got you. No, it was why are you doing that? All that divide and conquer, we can't do that no more guys. The kids that go to the charter, they from Chester. A lot of the kids in that school, parents go to both schools. We got kids in the charter school, in

the public school, in the same household. So, you want us to tell a parent who to love more, the charter school kid or what a public school kid? We're not going to do as a district. We're one now. So, thank you Peter.

Mr. Barsz – Thank you,

Dr. Baughn then stood up and thanked Mr. Johnson:

Mr. Barsz hired me three and a half years ago. Thank you for that recommendation, Mr. Johnson, thank you, and I'm still here. I know some folks Mr. Barzs lost a couple folks, but I'm still here, and I thank you very, very, very much. We're not sure what's going to happen, but I can tell you this, that we're going to keep moving. This board and whoever comes in, we're going to keep moving with this administrative team we have and Mr. Barsz, you check us out. We're going to make you proud.

Mr. Barsz - I'll be sure to continue to check this out, but I just, this was an extraordinary rewarding three and a half years and just, I've learned so much and made so many wonderful friends. It's just been a spectacular part of my life, just incredible. And you always look forward to the challenge, but do have some remorse from leaving, and there is plenty of work to do. These people are superb, sitting up here. They are top shelf in every aspect. And you're in really good hands. But, it's been fabulous. And to all the teachers and the principals, thank you. God bless you. God bless the parents and God bless all the children of the school district. Thank you. Thank you very much.

There being no further business **Receiver, Peter R. Barsz adjourned** the meeting at 6:55pm.
